

DRASTIC CHANGES IN NATURALIZATION LAW AS APPLIED TO WOMEN

Would Not Become Citizens Through Naturalization of Husbands—Citizenship Would Not Come By Marrying American Citizen.

(By The Associated Press)
WASHINGTON, Jan. 5.—Drastic changes in the naturalization law, especially as applying to women, are provided in a bill reported favorably today by the house immigration committee.

The measure will take the place of two naturalization bills on the house calendar and an effort will be made, according to Representative Johnson of Washington, chairman of the committee, to have congress approve it at this session.

Women under the bill no longer would derive citizenship from the naturalization of husbands but would be required to make individual applications for citizenship. They also would not lose their American citizenship by marrying aliens except when an alien husband cannot lawfully become an American citizen or when a woman leaves the United States and resides two years in her husband's country or five years in some other country.

Would Have to Naturalize
Once expatriated a woman desiring to regain American citizenship would be required to follow the same procedure as any other alien desiring American citizenship. Women aliens under the bill would no longer automatically become citizens on marrying Americans but would be required to make application for citizenship after a five year's residence in this country.

Children of naturalized parents under the measure no longer would derive citizenship automatically from the parents although they would be made eligible to apply for citizenship when between the ages of 18 and 21 and upon proof in open court of their qualification and "their attachment to the principles of the constitution," would be granted citizenship.

The bill would require all applicants for citizenship to demonstrate their ability to read as well as to speak English as at present.

This provision would become effective one year after enactment of the bill. Applicants would also be required to disavow any anarchistic beliefs.

REFUSES TO MAKE STATEMENT UNTIL DETERMINE STATUS

Many Visitors at Hotel During Day to See O'Callaghan

MacSWINEY REMAINS WITH LORD MAYOR

(By The Associated Press)
NEWPORT NEWS, Va., Jan. 5.—Continuing the silence he has maintained since his arrival here yesterday as a stowaway on the Steamship West Cannon, Daniel O'Callaghan, lord mayor of Cork, refused tonight to make any statement for publication until his status has been determined.

Meanwhile friends of the Irish cause in the United States displayed activity by sending telegrams today from New York and other cities offering all assistance possible to the lord mayor and Peter J. MacSwiney, brother of the late Terence MacSwiney, who also arrived on the West Cannon.

Both MacSwiney and O'Callaghan are understood to be confident that the state department will allow the lord mayor finally to enter the United States for his avowed purpose of testifying at Washington before the commission of the committee of one hundred investigating the Irish question.

Thruout the day O'Callaghan and MacSwiney at their hotel, "The Irishman," were surrounded by friends who called to offer welcome and assistance. Tonight a reception was tendered the two by the society of friends of Irish freedom and auxiliary organizations.

O'Callaghan Talks Freely
During the reception Lord Mayor O'Callaghan talked freely with his visitors appearing for the first time since his arrival to have cast aside all worry. Frequently during chats with his callers his face lighted with smiles and once or twice he laughed heartily at salient bits of Irish wit.

Immigration Inspector L. R. Parker, in charge of this port, entered a formal order for the exclusion of Lord Mayor O'Callaghan from the United States because of alleged violation of immigration laws in coming here without a passport and notified the authorities at Washington by telephone of his action. Chief Inspector Schumaker at Norfolk, however, it was learned, asked for the passport condition to be waived and recommended that the lord mayor be permitted to enter the country.

It was said here tonight that if the Washington authorities should "Parker instead of Schumaker" in the case, O'Callaghan can appeal to the department of labor when it is expected a bill would be granted for his appearance at any time Secretary Wilson might designate.

Peter MacSwiney said tonight that he plans to remain here pending final disposition of O'Callaghan's case.

SEEK EXPULSION OF SOCIALIST MEMBERS

Resolution Introduced in New York Assembly—Three Members, Solomon, Orr and Jager Involved.

(By The Associated Press)
ALBANY, N. Y.—Resolutions calling for the expulsion of the three Socialist members of the New York assembly were introduced today at the opening session. The resolutions were referred to the committee on judiciary without debate.

One resolution called for the unseating of Assemblyman Solomon on the ground that he had been expelled from the 1920 assembly for disloyalty.

The other, directed against Assemblymen Samuel Orr and Henry Jager, set forth that because they were members of the Socialist party they could not consistently take the oath of office as assemblymen and ought, therefore to be unseated.

DECISION SUPPORTS EVERY CLAIM MADE BY ORGANIZED LABOR

This is the Opinion of Federation of Labor Secretary

SAYS LABOR MUST START ALL OVER

(By The Associated Press)
WASHINGTON, Jan. 5.—Decisions of the supreme court in the Duplex Printing company and the steel trust cases "support every claim made by organized labor on the attitude of federal courts when human rights and dollars are involved," Frank Morrison, secretary of the American Federation of Labor said tonight in commenting on the opinion which declared secondary boycotts a violation of the Sherman act.

"Compare with this position by the supreme court its refusal to dissolve the United States Steel trust," Mr. Morrison said. "The minority opinion in that case declared the trust was 'organized in plain violation and bold defiance' of the anti-trust act but the court refused to dissolve it because of a 'risk of injury to the public interest including a material disturbance of and, it may be, serious detriment to the foreign trade.'"

Would Improve Conditions.
"The court's decision in the Duplex-Machinist case is the result of the efforts of the machinists to improve conditions. They secured these conditions from three large printing concerns in the same line of business as the Duplex and these concerns called upon the machinists to place the Duplex upon the same competitive basis. That company refused and to hold what they had in the other plants, the machinists struck. The machinists were everywhere aided by their fellows and by unionists in other trades."

"This movement should be endorsed by every humane person and the policy of the Duplex should be condemned. But the United States supreme court says that the boycott—the workers' only weapon in this case—is illegal and a violation of the anti-trust act because it interferes with interstate commerce."

Mr. Morrison indicated that in his opinion the Duplex decision was the most severe legal blow the organized labor movement had received in many years when he said it would be necessary for labor to "start all over."

Such action as might be necessary to recover the lost ground, he added might be expected without delay.

Opposition to the reappointment of James H. Paddock is led by Senator John A. Wheeler of Springfield. Paddock is opposed by two candidates, A. G. Murray of Springfield and Jacob Hill of Decatur.

They asked for a wage increase of approximately 10 per cent that they would be paid \$200 for a 240 hour month during the first year of service and \$225 during ensuing years.

AMERICAN NAVAL BALLOONISTS ARE ON WAY TO CIVILIZATION

Relief Parties Set Out With Newspapermen to Meet Them

PREDICT SLOW PROGRESS

(By The Associated Press)
COCORANE, Ont., Jan. 5.—Somewhere on the snow-packed trails that lead from the lone Hudson Bay post, Moose Factory, near where they descended twenty days ago after a great adventure in the air, three American naval balloonists were beating their way tonight toward this outpost of northern civilization.

In striking contrast to the stormy nights of the past two weeks, a bright moon cast its gleaming rays over the snow tonight, the thermometer registered but a few degrees below zero and hardened veterans of the north country predicted the party as a result, would make better time.

While some men here express the belief that the Indian guides of the balloonist party will follow the trail down the Missinabi, the same pursued by the Indian runners that first brought news to the world of the airman's safety, others, especially those who have come in for trading in the last days, said the Abitibi river trail, which leads into this town, was in better shape for travel.

Relief Parties Start.

With clearing of the skies tonight a number of relief parties, each accompanied by one or more newspapermen put out on the trail that leads northward hoping to meet the party in a day or so.

The relief parties carried extra dog teams and fresh food, and were led by experienced "mushers" that their progress might be rapid.

Due to the inexperience in the north of the three naval officers, their progress on the trip seemingly short in point of miles, but always fraught with danger and hardship, naturally is slow.

The officers, it is pointed out, probably unexperienced in the use of snow shoes are ill-equipped for such a journey. At best, it is believed the aeronauts could not make more than twenty miles a day and probably have made less than ten on some days, especially when the snowfall was heavy.

HELD ON CHARGE OF CONSPIRACY

Washington Man Accused of Trying to Bribe Employees to Obtain Liquor Permits.

(By The Associated Press)
NEW YORK, Jan. 5.—William F. McCoy of Washington, D. C., was held in \$5,000 bail today charged with conspiring with two former women employees of the Internal Revenue office to defraud the government by obtaining liquor permits thru bribery from the federal prohibition commissioners office.

The women named in the complaint are Miss Catherine Focdy and Mrs. Volberg Castille. Miss Focdy will be arraigned tomorrow by the authorities announced Mrs. Castille could not be found.

The complaint charges that McCoy and the two women defrauded the government by means of bribes of money offered and given to Irene N. Richardson, and other persons employed in the office of the federal prohibition commissioner. McCoy's case will be heard next Wednesday.

A federal grand jury today began an investigation of the alleged traffic in fraudulent liquor withdrawal permits.

REFRIGERATOR CAR SUIT IS BEING HEARD BEFORE COMMISSION

Wholesale Grocers Seek to Stop the Use of Cars for Commodities Other Than Perishables—Packers Argue Such a Restriction Would be Waste in Transportation

(By The Associated Press)
WASHINGTON, Jan. 5.—Use by the big packers of refrigerator cars for shipment of commodities other than perishables was argued today before the interstate commerce commission, representatives of other shippers and wholesale grocers asking issuance of an order prohibiting the practice and attorneys for the packers requesting continuance of present regulations.

Such use of refrigerator cars combined with lower rates and priority of service Clifford Thorne of Chicago representing the wholesale grocers and western shippers, contended would ultimately bring about a situation where a small number of men—the directing heads of the packing companies—could at will force living costs up or down thru stifling all competition in the wholesale grocery business. Attorneys for the packers countered Mr. Thorne's argument by pointing out that under a decree issued by the District of Columbia supreme court with companies' consent the packers soon would cease to deal in many of the articles handled by wholesale grocers.

The contention also was made that since beef in shipment must be suspended from the roofs of cars much space was available for transportation of other than perishable goods. To confute the use of refrigerator cars to fresh meats and packing house products, as required by the National Wholesale Grocers' Association, the packers attorneys said would be a waste in transportation.

Packers Own Cars

Most of the refrigerator cars used by the packers are owned by them R. D. Rynder, attorney for Swift & Co., told the commission adding that the packers load the cars and ice them both at the start and enroute at their own expense while the wholesale grocers shipping in mercantile cars are not required to do so.

The packers also were charged by Mr. Thorne as holding an advantage over other shippers of foodstuffs in the quicker service obtained in all railroad yards for refrigerator cars marked as containing "perishable goods." He declared that in some instances expedited freight was composed largely of shipments of tin signs, canned goods, sawdust, cocoa and coffee. The packers representatives denied that their cars were moved more quickly than the cars of other concerns dealing in like products.

ACQUISITION OF DETROIT STREET RAILWAY OPPOSED

Company Appeals from the Lower Court Decision

(By The Associated Press)
WASHINGTON, Jan. 5.—Acquisition by Detroit of a municipal street railway system, voted for last April 5, will deprive the Detroit United Railway of its property without "due process" caused for the railway declared today before the supreme court appealing from the refusal of lower courts to restrain city authorities from spending any part of \$15,000,000 in city bonds provided.

Many who voted for the proposal were misled by Mayor and common council, the complainant said, to believe that the city was to purchase existing lines for which franchise had expired when the real purpose was to construct an entirely new system.

Counsel for the city declared the city of Detroit from carrying out the expressed purpose of a vast majority of its citizens, adding that the plaintiff's objections are fanciful and artificial.

house making shipments abroad. This particular firm has recently received cancellations amounting to \$220,000 and the goods are on ship board enroute to destinations where the consignee will refuse to receive them. It is readily understandable that there will be some serious losses.

N. W. Ayer & Son, for many years prominent among advertising agencies, some time since addressed a letter to newspapers all over the country, suggesting that comment should be made upon this subject with the end in view of impressing anew upon men in business the difficult conditions which cancellation brings to pass. In their letter N. W. Ayer & Son said:

In the advertising business, there has been of late years a greater regard for the integrity of a contract, but our relations with many different lines of business reveal to us today an attitude of mind among many business men which approaches, in our opinion, the character of a menace to business as a whole. This attitude of mind permits the business man to regard the contract as breakable at his convenience, when he discovers that it may be to his temporary advantage to do so.

"This arrogant disregard of the second party appears to be growing with amazing swiftness. We do not regard the American business structure as unsound, or business men as a rule dishonest or dishonorable, but it is apparent to every thinking person that the sanctity of contracts is the corner stone of business success and unless we are content to see anarchy in the business world, this tendency to disregard the integrity of a contract must be corrected."

Those who are looking for a basis for business optimism have found plentiful reason in the newspaper news columns during recent days. Dispatches from many industrial centers have told of the resumption of work in many manufacturing plants. In some instances many have gone back to work on shorter hours than before, and in other factories only certain departments have been put into operation.

But a general survey of the situation shows that the resumption of normal business operations has begun, giving proof that industrial heads believe that turn in business has come and that conditions generally are on the up grade. In some plants reductions in wages have been announced by the management. In others, the workers themselves have suggested such reductions and in still others the management has been able to reduce selling prices and still continue the same wage scale.

THE CANCELLATION EVIL.

Business men still complain of the difficulties which arise because of the widespread cancellation of contracts. A former Jacksonville man, associated with a firm which does an export business recently mentioned what serious conditions result from cancellations when sent to a

house making shipments abroad. This particular firm has recently received cancellations amounting to \$220,000 and the goods are on ship board enroute to destinations where the consignee will refuse to receive them. It is readily understandable that there will be some serious losses.

N. W. Painted Faces.

The young girls paint their faces, and look like works of art; they frequent public places, and nearly break our heart. Old girls have ample reason for art work, well designed; they look quite out of season unless they're kalsomined. But young girls should be tinted by Nature's tender care; paint never should be hinted by any hues they wear. I wonder if they figure on fooling any gent, as they apply with vigor the colors neatly blent? The gent may be a joker, pretending he is blind, but he knows yellow ochre, and less of every kind, and when he sees a maiden go flitting thru the grad with costly pigments laden, he isn't fooled so bad. A coat of paint and powder applied with lavish hands will make a girl look louder than modesty demands. And all the learned physicians agree that it's a sin; it causes punk conditions which ruin human skin. The old girls face the weather all painted red and white, because their hide's like leather—unpainted. It's a sight. They wouldn't have to do it had they, when young, been wise; but then, they tried beshrew it, to dazzle young men's eyes by painting white and crimson on cheeks already fair, and now we cast our glims on their maps, and tear our hair.

UNIVERSITY COW

BREAKS STATE RECORD

Illini Homestead Beechwood, known as "Two-Fifty" (that being her number in the U. of I. herd), a six-year Holstein cow, has just completed a year's test breaking the Illinois state record for cows of her breed. While on exhibition at the National Dairy Show, also in her 11th month of test, she milked 70 pounds per day. Her year's record is 25,559 pounds of milk and 894 1-2 pounds of butterfat (or 1117 pounds of butter).

MILK REQUIRES CARE

SUMMER AND WINTER

(By Edith Allen.)

The care of milk is quite as important in winter as in summer although it may not sour so quickly in the colder months. Milk is the kind of material in which many harmful bacteria thrive once they get into it. Not all bacteria sour milk, in fact the most dangerous members of this family do not.

Bacteria grow most readily in milk which is slightly warm but they can live in milk which is cool in summer so milk must be carefully protected from dirt, dust and insects in winter as in summer.

It should be kept covered when not being used. The people who keep milk in open pans or crocks should observe these rules. Do not let a child or anyone else drink from a cup and then dip it in a crock of milk. The cup may be carrying a bad cold or other germs into the milk when this is done. Keep a special utensil for dipping out milk.

Another bad habit which persons handling milk in open pans or crocks must be overcome is the dirty habit of blowing back the cream with the breath when wishing to dip out some of the skim milk. While ordinary breathing does not expel bacteria into the air, a sneeze, cough, or whiff of breath such as blowing, sends bits of moisture out of the mouth bearing any bacteria or germs which may be there. Even healthy people usually have a few dangerous germs lurking around in their mouths waiting for a good chance to make an attack and these thrive in milk as they do in mouths; once they get into the milk they are where they can get into the mouth of someone less able to resist them than the one who originally had them. Therefore it is dirty and unkind and unhygienic to blow into a pan of milk.

AUTOMOTIVE DEALERS BEGIN SECOND YEAR

The Jacksonville Automotive Dealers association plans to hold its annual meeting on Monday, January 24, at which meeting officers and directors for the ensuing year will be elected.

The Jacksonville association has been in existence one year and feels that the efforts put forth have been really worth while, not only in standardizing the handling of cars, correcting small abuses, obtaining beneficial and protective legislation, and better roads, but most of all in the promotion of harmony and good feeling among local car distributors.

The association begins its new year with a large membership and is planning for a busy season.

TAX EXTENSION WORK

The work of tax extension is moving along in the office of County Clerk Riggs in a very satisfactory way. It will be possible to turn the books over to the sheriff and collector this year at a date very much in advance of that effective last year.

Hungry Children Stand in Line at Three Thousand Kitchens of European Children's Fund

At the head of the line of hungry children that stretches across the Baltic States, Poland, Czechoslovakia, and Austria. Two and a half million children are in that line which touches at its various points three thousand kitchens maintained by the American Relief Administration European Children's Fund. This picture was taken in a Warsaw kitchen. Each child receives one meal a day of hot soup, bread and thick slices of white bread from the stations, and for those of them it is the only food they have from any source. Many of the children, knowing no one able to care for them but their good friend, the United States.

What America has done for these boys and girls dependent on her, she must do again this winter. She must send them food not only because they confidently expect it, but because not to send it means to undo all the relief work accomplished since the armistice. Herbert Hoover as chairman of the European Children's Fund appeals to the American people for \$23,000,000 to keep the child-feeding kitchens going in Eastern and Central Europe until warm weather and harvests again relieve distress.

MISS JEANETTE MILLER BRIDE OF DAVID SMITH

Young People Married in West—Will Return Here to Reside

The marriage of Miss Jeanette Miller and David Smith was solemnized Christmas day at the bride's home in Oak Grove, Oregon. The young couple expect to remain in Oregon for the present but are planning to make Jacksonville their future home.

Mrs. Smith is the daughter of William Miller who for many years was a member of the firm of Miller Bros., grocers, on the west side of the square. She attended the schools of this city and was one of the most attractive and popular young ladies in both the religious and social circles of Jacksonville. Since the family moved to Oregon Mrs. Smith has won many friends in the western city.

Mr. Smith is the son of Mrs. Emma G. Smith who resides on a farm on the mound road west of the city. He is a graduate of the high school and also attended Illinois College and was for a time a student of agriculture at the University of Illinois. At present he is the position of manager of a motor car company in Oak Grove, Oregon. The young couple have the best wishes of their many Jacksonville friends.

GIRLS MEANER THAN BOYS

This will be the subject of tonight at the Northminster revival. Rev. Walter E. Spooner will be the preacher, he will deal with this subject in a very practical way. There is no class that has as much to do with the home, society and church as the young women. There is no association in life so calculated to uplift and inspire and bring out the very best in a young man as association with a pure lady-like girl.

The girls of today are to blame for most of the meanness on the part of the boy. Let a young man work hard and try to save his money and manhood and does not spend his money for balls, shows, cards and ice cream he is called an old stingy skinflint; he is turned down for the top and dude. The ordinary girl has put a premium on the society top and turned down the honest, hard-working man.

ANOTHER LONG LIFE ENDED

Mrs. Hannah Elizabeth Traylor Passed Away at Home of Daughter.

Wednesday morning at five minutes after eight o'clock Mrs. Hannah Elizabeth Traylor passed away at the home of her daughter, Mrs. R. E. Phillips, east of the city. She suffered an attack of double pneumonia and had been ill since last Friday. Mrs. Traylor was born July 8, 1846 at the old Chamberlain home on the Vandalla road near where Nichols Park is now located.

The deceased was a daughter of Timothy and Julia Hope Chamberlain who were among the early settlers of this city. Mrs. Chamberlain was a sister of the late Mrs. J. M. Sturtevant and Mrs. Traylor was often at the Sturtevant home.

Mrs. Traylor was educated in the local schools, grew up to womanhood and spent most of her long life in this county.

January 13, 1863, she was united in marriage with J. W. Dunavan. Mr. Dunavan died January 6, 1885.

She was united in marriage with James H. Traylor of Petersburg August 18, 1896. They resided in that city until the death of Mr. Traylor fourteen years later. Mrs. Traylor then returned to Morgan county and has made her home since that time with the Phillips family.

She leaves five daughters, Mrs. F. M. Shield of this city, Mrs. R. E. Phillips of east of the city; Mrs. T. H. Maddox, Chatham; Mrs. P. C. Maddox, Murrayville; Mrs. A. R. McLain, St. Louis, and one son, J. H. Dunavan, Dixon, all of whom are here, also six teen grandchildren and eight great grand children.

Mrs. Traylor was a member of the Christian church. Hers was an active and useful life and devoted to her family.

Funeral services will be held at eleven o'clock Friday morning at the Phillips residence. Burial will be in Diamond Grove cemetery.

CROUP

Croup comes like a thief in the dead of the night when least expected. It may take hours for a doctor to arrive, and immediate treatment is necessary. That is why the careful mother always keeps a bottle of Glessco in the home. Glessco has stood the test of time. It has been used in millions of homes for years. It is a reliable remedy. Safe and sure in action, immediate in relief.

Glessco is guaranteed to relieve an attack of croup in fifteen minutes without vomiting. It carries the offending mucus out of the system and does not upset the stomach.

Ask your doctor about Glessco. Your druggist will tell you that there is more of it sold every year than all other croup medicines. It costs 50c per bottle and is worth ten times as much in time of need.

Can Guessing Win?

Between the prices paid to the producer and by the consumer there is a staggering difference.

There is one way to assure both farmer and consumer a fair price for food—that is through careful Farm Cost Accounting. The Farm Bureaus are instituting a national campaign to hurry the Government investigation of the costs of actual food production and distribution. Once the whole problem has been carefully and publicly sifted, it will be possible to put prices on a basis of justice to both producer and consumer and to eliminate the unreasonable unearned profits that are made "in the dark."

Every farmer owes it to himself to further the cause by lending his individual support to the work of the Farm Bureau. There's only one sensible way to run the race for fair profits. Leave in the stable the willing but crippled mule, Farm Cost Guessing, and make the running on the thoroughbred, Farm Cost Accounting. It's the only way to win.

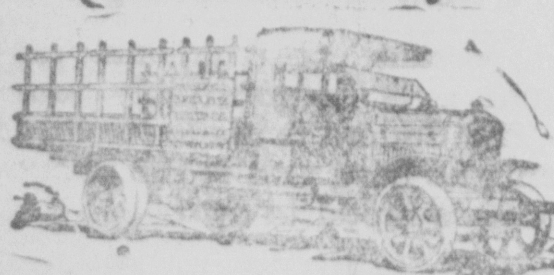

This conclusion is not a snap judgment by THE COUNTRY GENTLEMAN, but the result of careful study. Our editors and

investigators travel 300,000 miles a year to study farm problems and to report the best farm opinions of the country. We voice the honest opinions of the American farmer. THE COUNTRY GENTLEMAN contains famous fiction, striking pictures, great cartoons, and lots of smiles—it comes 52 times in a year—but perhaps it is most appreciated for its practical helpfulness. It makes money for farmers. Only \$1.00 for a year's subscription will prove it to you—send bill or check.

CITY COUNCIL HELD INFORMAL SESSION

Discussed Self Stokers for New Power Plant—Other Matters Also Given Consideration.

Mayor Crabtree and members of the city council with the exception of Ald. Elmie met in informal conference in the council chamber Wednesday night.

Extended discussion of a number of matters of importance was had, especially those referring to the new power and filtration plant.

The council considered the proposition of installing self-stokers in the new power plant. It was agreed that one of these should be installed and the matter was referred to Ald. Chapin and Moore, Engineer Caldwell and Superintendent Stoldt.

Mr. Stoldt will also begin at once the removal of one of the pumps to the new station. This is being done so that the new pipes can be tested out to see if they are adequate and working properly.

With the removal of the equipment to the new plant the problem of heating the city hall must be solved. It had been the purpose to bring one of the small boilers from the old station at the south end and install it at the old city plant.

However, Engineer Caldwell was of the opinion that the cost of moving the boiler would be so great and the capacity much larger than is necessary, it would be cheaper to purchase a smaller boiler for this purpose. This matter will be investigated more fully.

Many matters were threshed out at this conference. The annual appropriation ordinance which will be given a second reading and adopted at the meeting next Monday night also was considered. It is probable that reports will be made on self-stokers and the heating of the city building at the Monday night's meeting.

SPLENDID CHORUS AT NORTHMINSTER

Fifty Men Sang in Choir Wednesday Night—Forceful Sermon by Rev. C. H. M. Graves.

Evangelist C. D. M. Graves of Springfield was the speaker at Northminster church Wednesday night. The service opened with a number by the men's chorus, under the direction of Mr. Seniff. There are fifty voices in this chorus and the service of "songs was one which gave real inspiration to the house. The Scripture lesson was read by Mr. Graves from the 15th chapter of Luke and prayer was offered by Rev. G. W. Randle.

Mr. Graves preached a remarkably forceful sermon on "The Prodigal Son." He spoke from the viewpoint of God and said that the Heavenly Father seeks to bring sinners to repentance because they belong to Him; secondly, because His honor is involved when mortals fail, and in the third place, because God loves all men.

The men's chorus will sing again tonight and as at other services the music will be made an important factor.

The children's chorus will meet again this afternoon at 4 o'clock at the church for practice. Several hundred children attended the organization meeting and are expected to be present again this afternoon.

The Ayers National Bank has taken over the Banking Business of Dunlap, Russel & Co., and assumed the liability for its deposits. Pass-books, Savings-books and Certificates of Deposit issued by Dunlap, Russel & Co. will be honored by the Ayers National Bank now or at any time in the future, whenever they may be presented.

Customers having funds to their credit in the bank of Dunlap, Russel & Co., may continue to use Dunlap, Russel & Co. checks, or checks on this Bank, even though their accounts have not been transferred to our books. We suggest, however, that you bring in your pass-book when it is convenient and let us write it up and make the transfer for you.

It is generally known that M. F. Dunlap and Andrew Russel, President and Vice President of the Ayers National Bank, were the owners of the Bank of Dunlap, Russel & Co., and the change that is being made is not in any sense a change in management, but simply a change in location. All of the officers and clerical force of Dunlap, Russel & Co. are to become a part of the office force of this Bank, thus enabling the customers to transact their business with the same persons who have heretofore served them.

With the assurance that it will be our endeavor to maintain the same cordial relations that have heretofore existed between Dunlap, Russel & Co. and their customers, we are,

Yours very truly
